This book is like sending fireworks into the night sky! As the world desperately looks for someone to bring order out of the chaos, we are ripe for a new 'Solomon' to come on the scene and bring about "Peace" in our time. But as Mark Biltz reveals with fresh insight, the pattern established by King Solomon may in fact be the pattern for the man called the Antichrist. This totally blew my mind. I cannot wait for the conversations this will spark when everyone reads it!

In *Decoding the Antichrist and the End Times*, Mark Biltz not only draws our attention to the importance of connecting the New Testament to its foundation in the Tanakh but also to the necessity of examining the Scriptures from the perspective of those who wrote them: the Jews. Biltz zeroes in on key patterns that demonstrate the prophetic significance of the Feasts of the Lord, rebuilding the Temple, and the regathering of Israel. While underscoring the historical nature of Scripture, Mark skillfully reminds us that the body of Messiah still faces challenges in combating replacement theology and a predominantly Greek mindset. *Decoding the Antichrist and the End Times* is a book chock-full of twists and surprises.

"Decoding the Antichrist and the End Times by Mark Biltz is the most important biblically documented work for this generation. Throughout history, God foretold of events that would occur to the prophets in order to prepare the generations to come. With so much disinformation about end-time prophecy, Pastor Biltz cuts through the inaccurate biblical interpretation of past theologians to give us the simple unvarnished biblical truth. This book is a must read to help us better understand the Hebraic roots of the Christian faith and the responsibility we have to test everything against His Word."

"What Mark Biltz does with this book really calls on Jews, Christians and Muslims to come out of their devotion to tradition and instead walk the path to seek the Truth even if it challenges them. If you are at all interested in getting beyond what has been marketed to the blind masses as end times theology and wanting to search deeper, than this book needs to be part of your library."

"Mark Biltz new book Decoding the Antichrist and the End Times takes the reader on a journey that explores age old theories, myths and misconceptions and presents scripture as the Key that unlocks the truth. Replacement Theology which is at it's core Anti-Semitic, is exposed through a historical perspective that is foundational for the spirit of Antichrist to arise in the last days. This book is a must read in the hour in which we live!"

"Many know Pastor Mark's teaching as someone who understands times and seasons from a Hebraic lens. This new book applies that lens to an end time prophecies and conversations that are often muddled with abstract timelines and guesses about major players. I love the big picture connections he makes about the seasons of history repeating themselves from a biblical perspective and reminds me of Isaiah saying that God is "declaring the end from the beginning" (Isa 46:10). For those that that have come to love Pastor Mark's foundational Hebrew and Torah focused teachings, this book is sure to bring some great understanding!"

Author, Israel Rising

We are in "That Day" that Scripture refers to as the final part of this era. Israel is awakening, the Church is awakening to Israel, and God is restoring His family to Himself to make way for His end-time plans to be fulfilled. But this will require adjustment and change on the part of all believers, Jews and Gentiles alike. Not only to recognize it, but also to be immersed in it.

Mark Biltz's new book "Decoding The Antichrist And The End Times," will help you to think along these lines. It presents some very thoughtful insights on end-times away from a Greco mindset that has influenced much of our thinking, back into a Hebrew mindset that is important to our understanding for these most significant days. And with that it helps us to become more aware of things we may have missed or overlooked beforehand.

Mark Biltz is one of these teachers who is helping us to unlock these times. Very enlightening and thought provoking - Job well done!
